MANAGE YOUR VULNERABILITY

VIA Agent & PCI Compliance

In an effort to reduce the losses caused by hackers and credit card frauds, major credit companies joined together and created the Payment Card Industry Data Security Standards (PCI DSS) to require a business or organization to be able to assure their customers that its credit card data, account information, and transaction information is safe from hackers or any malicious system intrusion.

Failure to comply with the PCI DSS requirements can result in heavy fined, restrictions, and/or permanent suspension.

Don't risk it, be PCI Compliance with VIA Agent in 3 easy steps

1

PCI Self-Assessment Questionnaire

- Available via web portal
- Questionnaires divided into 6 sections based on the 12 PCI security requirements
- Yes/No/Special answer
- Expert advice included

2

Vulnerability Scanning

- On-demand security scanning via online portal
- PCI Compliance scan set
- 21,000 known vulnerabilities
- Fuzzing capability

3

Report Delivery and Submission

- Report delivered via web portal
- Interactive view or PDF
- Security threats level prioritized
- Remedy instructions
